- We use HTML to create the front-end part of the web page.

- Here, we have created 3 HTML pages- home.html, image.html,imageprediction.html, and 0.html.

- home.html displays the home page.

- image.html is used for uploading the image

- imageprediction.html will showcase the output

- 0.html is to showcase the result. It tells the action to be performed on imageprediction.html while showcasing the result.

For more information regarding HTML
